THE CITY OF LONDON

SMOKE BY-LAW

On February 7, 1955, the Council of the Corporation of the City of London passed By-law No. P.W.-21-39 a by-law to provide for the abatement of smoke and the regulation of smoke producing equipment.

The by-law prohibits the discharge or emission from any fuel-burning equipment of smoke, dust, fly ash, soot, fumes or other solid or gaseous product of combustion the shade or appearance of which is equal to or denser than Number 2 on the Smoke Chart, except for a period or periods aggregating not more than four minutes in any half hour. If any fuel burning equipment shall be broken down, the aforementioned shall not apply to the emission of smoke if the Smoke Inspector considers such emission unavoidable, and if the repair of the equipment is being proceeded with, with utmost dispatch.

Chimneys and stacks used in connection with any fuel-burning equipment which burns or is intended or designed to burn solid or liquid fuel, and has more than 500 square feet of boiler heating surface (50 H.P.), shall be equipped with a smoke indicator or recorder.

The by-law provided for the appointment of a Smoke Inspector who shall investigate complaints, make observations of smoke conditions, take the necessary and proper action to prosecute violations of the Smoke Abatement By-law, and keep records of violation, complaints and other matters on file for Department purposes only.

The Smoke Inspector and every person appointed to assist him in carrying out his duties shall be permitted, at all reasonable times, to enter upon any property within the City of London for the purposes of ascertaining whether or not the provisions of the Smoke Abatement by-law are being complied with.

Where existing chimneys or stacks are so located that the emissions or discharges therefrom are a nuisance to the occupants of any building or structure subsequently erected; or where any building or structure subsequently erected adversely affects the draft of any such chimney or stack, the nuisance shall be abated or the adverse effect upon such draft shall be corrected, either by increasing the height of the chimney or stack or by making such other provision as is deemed effective by the Smoke Inspector, and such work shall be done by the owner of the building or structure of which the chimney or stack forms a part, and the cost and expenses incurred may be recovered by him from the owner of the building or structure subsequently erected, in any Court of competent jurisdiction as a debt due and payable.

The by-law also provides that its provisions shall not apply to the operation of a railway locomotive, except for the purpose of bringing into operation General Order No. 18 of the Board of Transport Commissioners of Canada, passed on November 25, 1908, or any other Order of the Board applicable to the subject matter of the by-law, and the provisions of the by-law shall be subject to the provisions of Subsection 4 to 9 (both inclusive) of Section 399 of The Municipal Act, Chapter 243, R.S.O. 1950.

There is a provision in the by-law that such by-law shall not be deemed by implication to waive or revoke any provision of any other by-law or regulation of the Council of the Corporation.

Penalties for infraction of the by-law, upon conviction, may be $50.00 and costs for the first offence, $100.00 and costs for the second offence and $200.00 and costs for the third offence and each subsequent offence.

The full text of the By-law may be seen at the City Clerk's Office, London, Ontario.

THE CITY OF LONDON

Smoke By-law

On February 7, 1955, the Council of the Corporation of the City of London passed By-law No. P.W.-21-39 a by-law to provide for the abatement of smoke and the regulation of smoke producing equipment.

The by-law prohibits the discharge or emission from any fuel-burning equipment of smoke, dust, fly ash, soot, fumes or other solid or gaseous product of combustion the shade or appearance of which is equal to or denser than Number 2 on the Smoke Chart, except for a period or periods aggregating not more than four minutes in any half hour. If any fuel burning equipment shall be broken down, the aforementioned shall not apply to the emission of smoke if the Smoke Inspector considers such emission unavoidable, and if the repair of the equipment is being proceeded with, with utmost dispatch.

Chimneys and stacks used in connection with any fuel-burning equipment which burns or is intended or designed to burn solid or liquid fuel, and has more than 500 square feet of boiler heating surface (50 H.P.), shall be equipped with a smoke indicator or recorder.

The by-law provided for the appointment of a Smoke Inspector who shall investigate complaints, make observations of smoke conditions, take the necessary and proper action to prosecute violations of the Smoke Abatement By-law, and keep records of violation, complaints and other matters on file for Department purposes only.

The Smoke Inspector and every person appointed to assist him in carrying out his duties shall be permitted, at all reasonable times, to enter upon any property within the City of London for the purposes of ascertaining whether or not the provisions of the Smoke Abatement by-law are being complied with.

Where existing chimneys or stacks are so located that the emissions or discharges therefrom are a nuisance to the occupants of any building or structure subsequently erected; or where any building or structure subsequently erected adversely affects the draft of any such chimney or stack, the nuisance shall be abated or the adverse effect upon such draft shall be corrected, either by increasing the height of the chimney or stack or by making such other provision as is deemed effective by the Smoke Inspector, and such work shall be done by the owner of the building or structure of which the chimney or stack forms a part, and the cost and expenses incurred may be recovered by him from the owner of the building or structure subsequently erected, in any Court of competent jurisdiction as a debt due and payable.

The by-law also provides that its provisions shal not apply to the operation of a railway locomotive, except for the purpose of bringing into operation General Order No. 18 of the Board of Transport Commissioners of Canada, passed on November 25, 1908, or any other Order of the Board applicable to the subject matter of the by-law, and the provisions of the by-law shall be subject to the provisions of Subsection 4 to 9 (both inclusive) of Section 399 of The Municipal Act, Chapter 243, R.S.O. 1950.

There is a provision in the by-law that such by-law shall not be deemed by implication to waive or revoke any provision of any other by-law or regulation of the Council of the Corporation.

Penalties for infraction of the by-law, upon conviction, may be $50.00 and costs for the first offence, $100.00 and costs for the second offence and $200.00 and costs for the third offence and each subsequent offence.

The full text of the By-law may be seen at the City Clerk's Office, London, Ontario.

Of which all persons are required to take notice and govern themselves accordingly, the fourth and last publication of this notice being on the 11th day of February, 1956.

R. H. COOPER,
City Clerk.

11.(1) Where the whole of a public-school section, or a separate-school area, is transferred from one board to another, the grant for the former board for the year following the transfer shall be calculated as though there had been no transfer and be paid to the latter board.

(2) Where part of a public-school section or of a larger unit of administration is transferred from one board to another, the grant for the year following the transfer shall be calculated as though there had been no transfer, and

(*a*) in the case of public schools, subject to the provisions of sections 17, 29, and 39 of *The Public Schools Act*, or

(*b*) in the case of separate schools, subject to an agreement between the boards,

shall be paid to each board in the proportion that the number of pupils residing in the remaining part and residing in the part transferred, respectively, bears to the number of pupils on the last school-day of September in the year preceding the transfer residing in the area being divided.

SPECIAL SECTIONS AND AREAS

12.(1) Where the board of a school section or separate-school area is supported only by the assessment in whole or in part of 2 or more urban municipalities each having a population of 2,500 or more,

(*a*) the average daily attendance of pupils and the approved cost, excluding transportation, shall be divided among the municipalities in the same proportion as the enrolments of resident pupils on the last school-day of September was divided; and

(*b*) the approved cost of transportation of the pupils resident in each municipality shall be added to the approved cost apportioned to that municipality;

and the grants under this Part shall then be calculated as if a board operating a school existed for each municipality, and the total thereof paid to the board.

(2) Where the board of a school section or separate-school area is supported by the assessment, in whole or in part, of one or more urban municipalities each having a population of 2,500 or more, and the assessment, in whole or in part, of one or more rural municipalities, or of one or more urban municipalities each having a population of less than 2,500, or of one or more rural municipalities and of one or more urban municipalities each having a population of less than 2,500,

(*a*) the average daily attendance of pupils and the approved cost, excluding transportation, shall be divided among the urban municipalities each having a population of 2,500 or more and the remainder of the section or area, as the case may be, in the same proportion as the enrolments of resident pupils on the last school-day of September was divided; and

(*b*) the approved cost of transportion of pupils resident in each urban municipality having a population of 2,500 or more shall be added to the approved cost apportioned to that municipality, and the approved cost of transportation of the pupils resident in the remainder of the section or area shall be added to the approved cost apportioned to the remainder of the section or area, as the case may be;

and the grants under this Part shall then be calculated as if a board operating a school existed for each of the urban municipalities having a population of 2,500 or more, and a board operating a school existed for the remainder of the section or area, as the case may be, and the total thereof paid to the board.

NEW BOARDS AND BOARDS COMMENCING OPERATION OF A SCHOOL

13.(1) In the year in which a new board is established, other than a board assuming jurisdiction for school purposes of an area previously administered by another board, the average daily attendance and approved cost shall be for the current year, and shall be used for the purposes of this Part until the year following that in which the board has operated a school for a year.

(2) In the year in which a board commences operation of a school, and the board or any former board incorporated therein has not previously operated a school, the average daily attendance and approved cost shall be for the current year, and shall be used for the purposes of this Part until the year following that in which the board has operated the school for a year.

(3) A disbursement included in approved cost under subregulations 1 and 2 for

(*a*) capital charges,

(*b*) capital outlays from current funds,

(*c*) tuition fees paid to another board, or

15.(1) Where a rural school-section is designated and a board appointed under subsection 1 of section 66 of *The Public Schools Act*, "approved cost" means the

total amount of money paid out of current revenue during the preceding year for the operation of the school or schools under the jurisdiction of the board, inclusive of tuition fees paid to any other board but exclusive of capital expenditures and expenditures for text-books, books of reference, milk, and rent, and less tuition fees received from any other board.

(2) The board so appointed shall be paid a grant of 50 per cent of the approved cost as defined in subregulation 1, but where the board operates a school in a sanatorium, a hospital, or a centre for the treatment of cerebral palsy established under section 66 of *The Public Schools Act*, the grant shall be 80 per cent of the instructional salaries, 50 per cent of the tuition fees, and 50 per cent of the approved cost for transportation as defined in sub-clause ii of clause *b* of subregulation 1 of regulation 7, of pupils going to other schools, as paid in each case in the preceding year.

(3) Notwithstanding subregulations 1 and 2, where Canada pays Ontario for the training of disabled or handicapped persons, a portion of the disbursements therefor made by Ontario to a board so appointed, no grant shall be paid under these regulations.

LIMITATION OF GRANTS

16.(1) Except in the case of the board of a larger unit of administration, the grants under this Part shall not exceed the amount by which the cost of operating exceeds the township grant payable under section 91 or 115 of *The Public Schools Act*.

(2) The total of the grants to a board under this Part and under Parts 4, 5, 6, and 7 shall not exceed in any year

(*a*) 90 per cent of the cost of operating where the assessment per class-room unit is $20,000 or more, or

(*b*) 95 per cent of the cost of operating where the assessment per class-room unit is less than $20,000.

PART 2

High Schools, Continuation Schools and Vocational Schools

APPLICATION

17. This Part applies to general legislative grants in respect of high schools, continuation schools, and vocational schools.

INTERPRETATION

18.(1) In this Part "approved cost" means for high schools and continuation schools, but subject to subregulation 4,

(*a*) the portion, approved by the Minister for grant purposes, of the payments, or amounts set aside for payment by the board or on its behalf in respect of principal, interest, and other charges due in the current year on debentures issued and capital loans obtained on or after the 1st of January, 1945, for new buildings, additions to buildings, or for equipment,

(*b*) the portion of the cost, approved by the Minister for grant purposes, in respect of disbursements made from current funds by a board or on its behalf during the preceding year, except as set forth under regulations 27 and 28, in respect of

(i) transportation of pupils to and from school where their parents or guardians do not contribute directly to the cost of the transportation,

(ii) capital outlays for new buildings, additions to buildings, and for equipment for new class-rooms,

(iii) capital outlays for school buses,

(i) principal, interest, and other charges due in that year on debentures issued and capital loans obtained before the 1st of January, 1945,

(ii) tuition fees paid to another board for pupils attending a high, continuation, or vocational school operated by that board and, where subregulation 1 of regulation 26 is applicable, tuition fees with respect to the year preceding the transfer which are owed to the board of any former district transferred to a new district by any other board transferred to that district,

(iii) the portion of the fees paid to a member association of the Ontario School Trustees' Council, which is remitted by the member association to the Ontario School Trustees' Council,

(iv) capital outlays from current funds exclusive of capital outlays in respect of text-books, school sites, and improvement of present sites, and in the case of schools already in operation exclusive of items under sub-clauses ii, iii, and iv of clause *b*, but not exceeding an amount computed by multiplying $5 by the average daily attendance, and

(v) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof,

less current-fund receipts as follows:

(*d*) amounts transferred to current funds from capital funds,

(*e*) insurance proceeds,

(*f*) proceeds from the sale of school buildings and equipment, and

(*g*) refunds and reimbursements connected with disbursements previously included in approved cost.

(2) In this Part "approved cost" means for vocational schools, but subject to subregulation 4, the portion of the disbursements approved by the Minister made

(*a*) on behalf of a board in respect of principal, interest, and other charges due in the current year on debentures other than those issued in respect of buildings, additions to buildings or equipment upon which the grant provided by subregulation 3 of regulation 23 has already been paid, and

(*b*) by a board from its current funds in the preceding year, in respect of capital outlays

(*a*) "assessment" means

(i) the assessment of all property rateable for school purposes in each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment roll on which taxes were levied for the preceding year, or where that high- or continuation-school district is in a municipality which forms part of a county for municipal purposes, the amount at which that assessment was equalized by the county; and

(ii) where moneys are received by the board under section 33 of *The Assessment Act* or clause *b* of regulation 4 of Ontario Regulations 197/52, the assessment as set forth in sub-clause i together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the rate-payers of the high- or continuation-school district for school purposes, would result in taxes equal to the moneys so received by the board,

but where the assessment under sub-clause i, to be used for a municipality in the calculation of the grant under these regulations, is more than 120 per cent of the assessment under sub-clause i used for that municipality in the preceding year, the assessment of that municipality under sub-clause i means 120 per cent of the latter assessment;

(*b*) "assessment per capita" means the quotient obtained by dividing the number representing the assessment by the number representing the population, but where there is no assessment for school purposes, the assessment per capita means an assessment per capita of $1150;

(*c*) "population" means the total population of each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment rolls on which taxes for the preceding year were levied, less the number of inmates of public institutions; and

(*d*) "population per municipality" means the quotient obtained by dividing the total population of municipalities in whole or in part in the high- or continuation-school district by the number of those municipalities, but where no population is available, the population per municipality means fifty times the average daily attendance.

(4) Except where grants are payable under subregulation 2 of regulation 23, debenture charges and capital outlays from current funds shall form part of the approved cost only in the proportion that the average daily attendance of all pupils other than pupils from other high- or continuation-school districts attending the schools under the jurisdiction of a board, bears to the total average daily attendance in those schools.

AVERAGE DAILY ATTENDANCE

(2) For the purposes of subregulation 1 the average daily attendance of a high or continuation school shall be not less than the figure computed by subtracting the average daily attendance of pupils attending the school from other high- or continuation-school districts from 20, or in the case of a school on an island or in a territorial district, from 40.

20.(1) Where the board operates one or more departments of agriculture, the average daily attendance, as provided in regulation 19, shall be increased for each department by the number set forth in Column 2 in accordance with the average daily attendance in the preceding year set opposite thereto in Column 1 as follows:

300 or more	5

(3) Where the pupils of 2 or more schools operated by a board receive instruction in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purpose of subregulation 2.

(4) Where the board operates one or more home-instruction units, the average daily attendance, as provided in regulation 19, shall be increased for each of those units by 2.

(5) Where a department, class-room, or unit was in operation for only one term in the preceding year, the average daily attendance shall be increased by one-half of the number calculated under subregulations 1, 2, and 4, respectively.

THE CITY OF LONDON

Smoke By-law

On February 7, 1955, the Council of the Corporation of the City of London passed By-law No. P.W.-21-39 a by-law to provide for the abatement of smoke and the regulation of smoke producing equipment.

The by-law prohibits the discharge or emission from any fuel-burning equipment of smoke, dust, fly ash, soot, fumes or other solid or gaseous product of combustion the shade or appearance of which is equal to or denser than Number 2 on the Smoke Chart, except for a period or periods aggregating not more than four minutes in any half hour. If any fuel burning equipment shall be broken down, the aforementioned shall not apply to the emission of smoke if the Smoke Inspector considers such emission unavoidable, and if the repair of the equipment is being proceeded with, with utmost dispatch.

Chimneys and stacks used in connection with any fuel-burning equipment which burns or is intended or designed to burn solid or liquid fuel, and has more than 500 square feet of boiler heating surface (50 H.P.), shall be equipped with a smoke indicator or recorder.

The by-law provided for the appointment of a Smoke Inspector who shall investigate complaints, make observations of smoke conditions, take the necessary and proper action to prosecute violations of the Smoke Abatement By-law, and keep records of violation, complaints and other matters on file for Department purposes only.

The Smoke Inspector and every person appointed to assist him in carrying out his duties shall be permitted, at all reasonable times, to enter upon any property within the City of London for the purposes of ascertaining whether or not the provisions of the Smoke Abatement by-law are being complied with.

Where existing chimneys or stacks are so located that the emissions or discharges therefrom are a nuisance to the occupants of any building or structure subsequently erected; or where any building or structure subsequently erected adversely affects the draft of any such chimney or stack, the nuisance shall be abated or the adverse effect upon such draft shall be corrected, either by increasing the height of the chimney or stack or by making such other provision as is deemed effective by the Smoke Inspector, and such work shall be done by the owner of the building or structure of which the chimney or stack forms a part, and the cost and expenses incurred may be recovered by him from the owner of the building or structure subsequently erected, in any Court of competent jurisdiction as a debt due and payable.

The by-law also provides that its provisions shall not apply to the operation of a railway locomotive, except for the purpose of bringing into operation General Order No. 18 of the Board of Transport Commissioners of Canada, passed on November 25, 1908, or any other Order of the Board applicable to the subject matter of the by-law, and the provisions of the by-law shall be subject to the provisions of Subsection 4 to 9 (both inclusive) of Section 399 of The Municipal Act, Chapter 243, R.S.O. 1950.

There is a provision in the by-law that such by-law shall not be deemed by implication to waive or revoke any provision of any other by-law or regulation of the Council of the Corporation.

Penalties for infraction of the by-law, upon conviction, may be $50.00 and costs for the first offence, $100.00 and costs for the second offence and $200.00 and costs for the third offence and each subsequent offence.

The full text of the By-law may be seen at the City Clerk's Office, London, Ontario.

Of which all persons are required to take notice and govern themselves accordingly, the fourth and last publication of this notice being on the 11th day of February, 1956.
